SOUS-TEST 2 : READING COMPREHENSION

Question 21. Reality TV shows will have an adverse effect on traditional dramas and comedies. As reality TV increases in popularity, network executives will begin canceling more traditional programs and replacing them with the latest in reality TV.

This paragraph best supports the statement that:

- A. reality TV is low quality.
- B. reality TV shows get the highest ratings.
- C. more people are participating in reality TV.
- D. the increasing popularity of reality TV threatens traditional TV.**

Question 22. Many animals hibernate during the winter, entering a state that is similar to a very deep sleep. The animal's body temperature drops well below its normal range and its metabolism slows to the point where the animal does not need to eat or relieve itself. In order to prepare for hibernation, the animal must build up its body weight by increasing body fat.

How does an animal prepare for hibernation?

- A. Its temperature falls.
- B. It eats more.**
- C. it excretes more waste.
- D. It sleeps less.

Question 23. In recent years it has become clear that the world urgently needs better food distribution, but healthcare needs are just as urgent. Medical expertise and medical supplies need to be redistributed so that people in emerging nations have access to better healthcare.

This paragraph best supports the statement that:

- A. people in emerging nations struggle to receive adequate medical care.**
- B. most of the people in the world have little or no medical care.
- C. medical resources in emerging nations have diminished in recent years.
- D. pharmaceutical supplies and medical professionals are less urgent than food security.

Question 24. Managing work and family is not simple. Both commitments make strong demands on people and are sometimes in direct opposition to each other. Saying yes to one means saying no to the other, and stress can often result. Being realistic and creating a balance in life can help set priorities.

The main idea of the passage is that:

- A. most family responsibilities cause stress at home and at work.
- B. because it pays the bills, a job must take priority over other commitments.
- C. it is important to have a balance between job and family responsibilities.**
- D. because they are so important, family duties must take priority over work.

Question 25. The use of e-mail has been increasing over the last ten years. E-mail simplifies the flow of ideas, connects people from distant offices, eliminates the need for meetings, and often boosts productivity. However, e-mail should be carefully managed to avoid unclear and inappropriate communication. When complex issues need to be addressed, phone calls are still best.

Which of the following would be the most appropriate title for the passage?

A. Appropriate and Inappropriate Use of E-Mail

B. E-Mail's Popularity

C. E-Mail: The Only Form of Communication

D. Why Phone Calls Are Better Than E-Mail

Question 26. Plato, the famous Greek philosopher, taught that the things of the world around us are merely copies or "shadows" of greater, eternal realities. He used the metaphor of people living inside a cave to convey his ideas. The people inside the cave could not see the world outside the cave, they could only see shadows of people and animals as they passed by.

As it is used in this passage, the word *convey* most nearly means:

A. carry

B. confuse

C. explain

D. transfer

Question 27. Critical reading is a demanding process. To read critically, you must slow down your reading and, with pencil in hand, perform specific operations on the text. Mark it up with your reactions, conclusions, and questions. When you read, become an active participant.

The main idea of the passage is that critical reading:

A. is synonymous with criticism.

B. requires readers to question the accuracy of what they read.

C. is not a passive exercise.

D. involves a written response.

Question 28. Mathematics allows us to expand our consciousness. Statistics tell us about economic trends, patterns of disease, and the growth of populations. They are good at exposing the truth but can also perpetuate misunderstandings and untruths. They have the power to mislead people.

This paragraph best supports the statement that:

A. statistics is the most important branch of mathematics.

B. the use of statistics crosses disciplines.

C. the weakness of statistics is that they cannot lie.

D. people may be manipulated by statistics.

Question 29. It is often difficult for parents to support a child's desire for freedom and autonomy. If you watch a boy of three trying to tie his shoes, you see his determination and his effort, even though the loops may not end up being matched. But how often do you see parents stepping in and taking over to tie the shoes the "right way" and defeat the child's growing attempt at self-mastery?

The passage suggests that helping a boy to tie his shoes the "right way" can be:

- A. necessary to his self-esteem.
- B. important to his personal hygiene.
- C. essential to his well-being.
- D. harmful to his development.**

Question 30. Theodore Roosevelt was born with asthma and poor eyesight, yet this sickly child later won fame as a political leader and a hero of the common people. To conquer his handicaps, Teddy, as he was often known, trained in a gym and became a lightweight boxer when he studied at Harvard. A few years later, he became the youngest president at the age of forty-two. He is famous for his motto, "speak softly and carry a big stick."

What achievement illustrates Roosevelt's ability to overcome personal obstacles?

- A. He won fame as a political leader.
- B. He was a hero to the common people.**
- C. He was affectionately called "Teddy."
- D. He was the youngest U.S. president.
